

LVCNS Program Outline

Long Valley Christian Nursery School will provide opportunities for your child to:

- Enhance their social skills
- Build a healthy, positive self-concept
- Develop language skills
- Be introduced to sound health, safety and nutrition habits
- Respect cultural diversity
- Think, reason, question and experiment
- Develop initiative and decision making skills
- Develop large/small muscle skills and eye/hand coordination

Children need years of play with real objects and events before they are ready to understand the meaning of symbols such as letters and numbers. Learning takes place as preschool children touch, manipulate and experiment with things and interact with people. The process of learning far outweighs the completion of a product. Although your child may not bring home such a finished product every day, rest assured your child is growing socially, emotionally, spiritually, physically and intellectually with us at LVCNS.
